Education

- [Brock University](#) - Honours BSc in Computer Science (2013)
- [Niagara College](#) - Computer Programmer Analyst Diploma (2009)

Experience

As Full-Time Developer

- [Method CRM](#) - Senior Full-Stack Developer (2021-2023)
- [Yangaroo](#) - .NET Engineer (2019-2021)
- [MRI Software](#) - Senior Developer (2013-2019)

Worked full-stack, from architecting and implementing back-end database schema and code, to front-end design and functionality, as well as documentation, testing, and debugging. Built and maintained virtualized systems for development and testing. Also planned new business features and mentored junior and intermediate developers.

As Part-Time Teacher / Developer

- [Niagara College](#) - Instructor - Object-Oriented Software Solutions (2013)
- [NC: Research & Innovation](#) - Computer Programming Research Assistant (2007-2013)

Instructed students in GUI design and basic programming, while testing and grading student performance. Worked on various software projects in partnership with local businesses. Personally presented software research projects at press conferences, trade shows, and to King Charles III.

Tech Stack Highlights

C# JavaScript .NET React SQL Git CSS HTML Tailwind Node Vite Docker
MongoDB RabbitMQ jQuery KML AngularJS Java PHP C++ Postgres TFVC
And More

Open Source Work

- [Visual Studio / Dotnet Roslyn](#) - Found and fixed a bug in the static analysis code of Microsoft's .NET Compiler Platform
- [Jargon Tools](#) - A website I built to play around with the latest CSS and Tailwind
- [MandelZoom](#) - Mandelbrot Set screensaver built using WinForms and GDI+. Also includes technical guide on screensaver programming and image processing techniques
- [Github Repos](#) - Other projects, including another screen saver and a pair of old .NET utility libraries
